

Welcome to Your NeuroSync Journey

We are delighted that you are using our programs. NeuroSync audios and videos are created for relaxation, learning, and self-development. They are for educational purposes only and designed to help you experience the specific benefits of each program whether that is to calm and relax, reconnect, explore yourself, or create meaningful transformation. Approach them with curiosity and consistency, and you may discover just how powerful your own mind truly is.

That said, **please keep in mind the following:**

- **Safe Practice:** Use the audio programs in a quiet, comfortable place where you can fully relax without distractions.
- **Not a Substitute for Medical Care:** NeuroSync modules are not intended to diagnose, prescribe, treat, cure, or prevent any medical or psychological condition. If you have health concerns or are under medical care, please consult a qualified healthcare professional before using them.
- If you feel you would benefit from additional support, you may wish to consider working with a qualified hypnosis practitioner. NeuroSync may provide access to practitioner referrals or guidance through the platform or trusted external resources.
- **Your Unique Journey:** Everyone's experience is different. Results vary depending on your own consistency, openness, and commitment to the process.

By using NeuroSync products, you acknowledge that your participation is voluntary, and undertaken at your own discretion, and that you are responsible for how you engage with the content.

To the extent permitted by applicable law, NeuroSync and its creators are not liable for any outcomes, decisions, or actions taken as a result of using the material. The content is intended to support personal development and self-exploration and should be used with personal awareness and responsibility.

By using NeuroSync products, you confirm that you understand and accept these terms. Always prioritize your well-being and enjoy this journey of self-discovery and transformation.
